HANENITE is a registered trademark of Naigai Rubber Industry Co., Ltd.

**AVAILABLE FROM YOUR EXPERT JANOME RETAILER**

**RUGGED. ROBUST. REFINED.**

The Janome Heavy Duty 9 QC Professional is a high-speed straight stitch machine built to handle large quilting projects and heavy-duty sewing like leatherwork, denim, and other tough materials. With an expanded workspace, fast sewing speed, and the ability to handle heavier threads, this machine is a true workhorse.

### FLOATING MODE

The HD9QCP features a new Floating Mode, allowing you to easily raise the presser foot height with a simple turn of a dial. This makes it ideal for sewing over thicker materials while maintaining perfectly straight stitching. It also helps reduce fabric slippage and prevents wrinkles across a wide range of fabrics.

### LOADED WITH ACCESSORIES

The HD9QCP includes a wide range of accessories, including specialty feet such as the even feed, free motion convertible, ¼", ditch quilting and open toe foot. It also comes with an extra-wide extension table, soft cover and handy tools, including a knee lifter.
